

Coffee
With a
Conscience

From Coffee to Classrooms

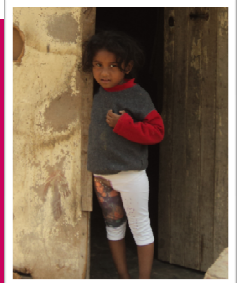

Kingdom Coffee works together with **Toybox** in Lima, Peru to bring hope and restoration to street children.

Who is Kingdom Coffee supporting?

Kingdom Coffee supports a project called *Centro de Referencia* in Lima, a day centre for working children who are at risk of moving to the streets. Education, emotional support and games are the focus of the project.

All the children attending the project come from poor families, who need their children to work on the streets to survive. The centre works to get the children into schools and cut down their working hours.

Last year, **Kingdom Coffee** funded a library for this project, giving children the opportunity to read and do homework in a safe place, and encouraging them to stay in school. This year, Kingdom Coffee are providing funding for leaders at the centre to be expertly trained for 9 months so that they can give the children all they need to get out of work and move forward in life. With the right training the project can reach many more children!

“ There are more than 3 million working children in Peru (UNICEF) ”

Thank you to Kingdom Coffee and its customers for their support for street children in Peru. Your coffee is transforming lives!

Toybox is a Christian charity committed to helping street living and street working children and those at risk of becoming so in Latin America.
